Eval. Notes:	Seagrave Coating Corp requested a letter to deactivate the USEPA ID number at this location on September 17, 2012. This inspection was to confirm that all of the hazardous wastes and other waste materials, including product from its previous manufacturing operations, was removed and disposed of accordingly. At the time of inspection, C. Plaveczyk, J. Zuzek and I walked the entire property. We also inspected the inside of each building, storage sheds, and common areas. NJDEP confirmed that all of the product that was previously stored at this location was either disposed of as hazardous waste or was taken to their Kenilworth manufacturing facility and used as product or ingredients for their coating materials. Portions of the manufacturing building and offices were in the process of being repainted and repaired. Sections of the floors were epoxy-painted. Areas of the roof were found leaking, so additional repairs to the building were necessary. The rear manufacturing building was not yet upgraded. The electric is still available, but the fire suppression (overhead water lines) were shut down with Carlstadt Fire Department's approval. Two remaining 55-gallon drums were open-top and empty. Laboratory or manufacturing equipment shown in the photos were being sold as is. Garbage and old files and debris are not considered an environmental issue, but the property owner is in the process of removing these items into the dumpster. The one section in the rear corner of the property adjacent to Peach Island Creek needs to be addressed, as old lumber and garbage remains on the ground and in the dumpsters. C. Plaveczyk agreed to have the material removed by June 30th. A photo of the corner property is in NJEMS. In summary, the hazardous waste and chemicals were removed from this location. There is minimal solid waste remaining on site awaiting disposal. The property owner has the property and buildings for sale. Photos were taken during the inspection.

Note: Penalty information associated with an enforcement action is reported with the enforcement action. For enforcement actions associated with multiple violations, the penalty information will be reported with each violation, however, the penalty is only assessed once, regardless of the number of violations associated with the enforcement.
